

# MACA

## Free Healthcare, Dental & Eyecare

By Dhillon as Governor of California

### The MACA Promise

Free healthcare, free dental care, and free eyecare for eligible Californians.

Only expense: \$5.00 per provider visit and \$5.00 for each prescription pickup. Everything else is free.

#### Who Qualifies

Permanent California residents who have lived in California for five years or more and have legal work status.

#### Copay Rule

\$5.00 when you visit a doctor office, chiropractor, therapist, dentist, eye doctor, clinic, or other covered provider; \$5.00 per prescription pickup.

### Simple Seven Point Plan

- 1. Free healthcare.** Primary care, specialist care, hospital care, emergency care, preventive care, mental health care, therapy, chiropractic care, and other covered healthcare services are free except for the \$5.00 visit copay.
- 2. Free dental care.** Cleanings, exams, fillings, extractions, dentures, emergency dental care, and other covered dental services are free except for the \$5.00 visit copay.
- 3. Free eyecare.** Eye exams, vision care, eyeglass and contact lens support, and treatment for eye health needs are free except for the \$5.00 visit copay.
- 4. Only \$5.00 per provider visit.** Doctor offices, chiropractors, therapists, dentists, eye doctors, clinics, and all other covered providers will collect only a \$5.00 copay per visit.
- 5. Only \$5.00 per prescription.** Each prescription will cost only \$5.00 when picked up. No high prescription bills and no surprise pharmacy costs.
- 6. Clear eligibility.** You must be a permanent California resident for five years or more and have legal work status to qualify.
- 7. Care for every age and profession.** Children, working families, seniors, employees, self-employed workers, and retirees who qualify receive the same promise: care first, low copay only.

**MACA: Free care. Five-dollar copay. Better health for California.**
